Honorable John J. Corbley, Secretary
Department of Licensing and Regulation
One South Calvert Street
Baltimore, Maryland 21202

Dear Secretary Corbley:

The Maryland State Board of Censors submits herewith its Sixty-Fourth Annual Report. This report summarizes the operations of this Board 1979-1980 Fiscal Year, and is pursuant to Section 9, Article 66-A of the Annotated Code of Maryland.

The Board has consistently sought to maintain contemporary community standards of decency in film entertainment, while following the expressed guidelines of the Legislature and the Courts of Maryland.

It is our responsibility to view films and to approve or reject them. Films that are rejected are those judged by the Board to cater to prurient interests, contain patently offensive representations of ultimate sex acts, normal and perverted, actual or simulated, which taken as a whole lack serious literary, artistic, political or scientific value. We have been greatly assisted in our review effort by the State's Assistant Attorney General.

The Board has reviewed 559 films during the recently concluded Fiscal Year. Two (2) of them have been modified before presentation to Maryland audiences and six (6) have been rejected in their entirety. The Board has processed 5673 duplicate seals and 1154 substitute seals. Additionally our Inspectional staff has performed 3520 inspections and uncovered 71 violations.

We recognize that the effective date of expiration of this Board is June 30, 1981 and that no funds are being included in the budget for 1982. However, we remain hopeful that the Governor and the Legislature will see fit to maintain some of the functions of this Board. We stress and hope that the following will be enacted:

1. The name of the Board be changed to Maryland Motion Picture Board of Review.
2. That all films for commercial showing be reviewed and that those not rated, (60%), be given a rating by the Board, with a procedure that will insure compliance from the Theatres to the Board's ratings.
3. Our rating symbols to be registered with the U.S. Patent & Trade Mark Offices as certification mark of the Maryland Motion Picture Board of Review.
4. A different, less costly and more effective system for displaying the Board's License of Approval be adopted.

Very truly yours,

Jerusa C. Wilson
Chairman

**Although the Board only rejected six (6) films, its mere presence of being in existence has controlled the stream of obscene films from being exhibited in the State of Maryland. It is estimated that nearly 400 obscene films which are allowed to be exhibited per year in Washington, D.C. are kept out of Maryland, because the Board exists.

1980 Fiscal year, of 559 films submitted to the Board for approval and licensing only 219 films carried the rating of the Motion Picture Association of America.

INSPECTIONS:

The Board employs one full time Chief Inspector who supervises the duties and assignments of fourteen (14) part-time inspectors. The inspectors are assigned various theatres throughout the State of Maryland to check periodically. There are approximately 260 theatres within the State of Maryland. Inspections of theatres are made to insure the compliance with the Annotated Code of Maryland, Article 66-A, and the Board's Rules and Regulations, to determine if films ruled obscene or films never submitted to the Board are being exhibited in the State, and to insure that The Board's Seal of Approval is displayed or exhibited on the screen. Inspectors are also required to periodically view films in theatres to determine if, deletions ordered by the Board are made in all the prints of each film that is exhibited in the State.

Specific inspections of certain theatres were made in instances where routine inspections showed flagrant violations of the Law in exhibiting films without the Board's Seal of Approval, exhibiting films containing matter which was ordered deleted or containing matter which was not therein when approved and licensed by the Board.

Routine inspections and undercover inspections were used to gather information for search and seizure warrants for use in raids conducted during the fiscal year.

During the fiscal year, a total of 3520 films were inspected during 2494 visits made to theatres throughout the State. There were of 71 violations of the Board's statute, of which 77% involved Article 66-A, Section 22, the Failure to Display the Board's Seal of Approval.
